

MSDS Management Service Fact Sheet

MSDS Management Service

Let MAC Safety Group manage and maintain your workplace MSDSs to keep your workplace safe and WHMIS-compliant.

Product Description

Designed to help you manage your occupational health and safety responsibilities relating to MSDSs and WHMIS requirements.

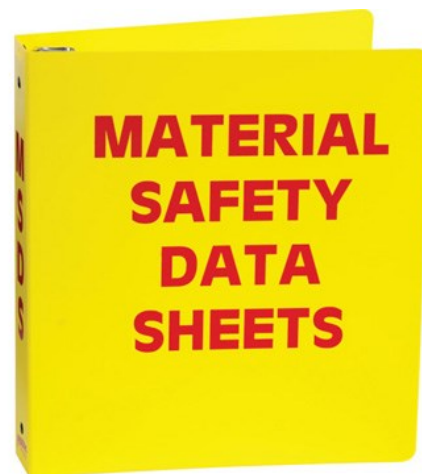

The MSDS Management Service includes:

- **Setup** of your overall, customized MSDS collection binder. Simply provide us with your MSDSs in electronic format or as paper originals and we'll take care of the rest. If you simply have the list of chemicals onsite, we can take it from there!
- **Unlimited Access** to the MSDSs in your customized collection. We will create an easy to follow Table of Contents and sort by alphabet for ease of finding.
- **Ongoing Maintenance** of your customized collection. When you have new products that require MSDS Management simply send them to MAC Safety Group and we'll add them to your collection It's that simple!
- **Customized Binders** complete with printed MSDSs organized the way you need it! Complete with Binder cover and spine cover, table of contents and chemical name highlighted to stand out for ease of reference.

MSDS Management Service Update Notification e-mailed to you monthly with updates specific to your customized collection.

MSDS Management Service is an ideal tool for:

- MSDS Managers
- Safety Advisor or Consultants
- Emergency Preparedness Staff
- Health & Safety Committee Members
- Warehousing, Shipping, Receiving and
- Storage Personnel
- Materials Management Purchasing Agents

WSH Act & Regulation—Chapter W210 10/02 (Included 2010 Amendment)

Material Safety Data Sheets (MSDS)

- Section 35.10(1) An employer who acquires a controlled product for use at a workplace must obtain a supplier material safety data sheet for that controlled product unless the supplier is exempted from the requirement to provide a material safety data sheet by section 9 or 10 of the Controlled Products Regulations and the employer complies with the applicable section.
- 35.10(2) When a supplier material safety data sheet obtained under subsection (1) is more than three (3) years old, an employer must, if possible, obtain from the supplier, an up-to-date supplier material safety data sheet for the controlled product.
- 35.10(3) If an employer is unable to obtain a material safety data sheet as required under subsection (2), the employer must review and revise, if necessary, the existing supplier's material safety data sheet on the basis of the ingredients disclosed on the sheet.
- 35.10(4) An employer may provide a material safety data sheet in a format that differs from the format provided by the supplier or containing additional hazard information if
- (a) the employer-provided material safety data sheet contains no less content or information than the supplier material safety data sheet; and
 - (b) the supplier material safety data sheet is available at the workplace and the employer-provided material safety data sheet indicates that availability.

Employer material safety data sheets

- 35.11(1) When a controlled product or a fugitive emission that contains a controlled product is produced at a workplace, an employer must prepare a material safety data sheet for the controlled product in question.
- 35.11(2) The material safety data sheet must be updated by the employer.
- (a) as soon as practicable but not later than 90 days after new hazard information becomes available; and
 - (b) at least once every three (3) years.

Accessibility of material safety data sheets

- 35.12 An employer must ensure that all supplier material safety data sheets and employer-provided data sheets required under this Part are readily accessible
- (a) to workers at the workplace who may be exposed to the controlled product; and
 - (b) to the committee or representative at the workplace.

Deletions from material safety data sheets

- 35.15 When an employer claims an exemption from a requirement to disclose information under section 35.14, the employer may delete from a material safety data sheet for the time period referred to in subsection 35.15(3), the information that is the subject of the claim but may not delete hazard information.
